Here

The Stranglers

Oh, yeah, mmm
Oh, sweet revelation got me
Levitating over ground
Life and all its vibrations
No, I'm never coming down
Oh, you're my own superhero
Keeps watching over me
I like it when you say
My green eyes are your constellations
To some light house in the sea
If your car stalls in the middle of the road in snow
I know, I know you'll be here
Lights out, in all of the city, black out no doubt
I know, you'll be here
River flows through the streets and the homes are floating
I know you'll be here
Stranded in the middle of China, they'll find ya
I know you'll be here
I'll be waiting by the window
With a view of the park at night
No matter how long it takes ya
Never fails, you come through every night
If your car stalls in the middle of the road in snow
I know, I know you'll be here
Lights out, in all of the city, black out no doubt
I know you'll be here
River flows through the streets and the homes are floating
I know you'll be here
Stranded in the middle of China, they'll find ya
I know you'll be here
Here, at the speed of lightning
Here, where the sun is shining
Oh, with the stars aligning
Here, oh, here
If your car stalls in the middle of the road in snow
I know, I know you'll be here
Lights out, in all of the city, black out no doubt
I know, you'll be here
River flows through the streets, and the homes are floating

I know, you'll be here
Stranded in the middle of China, they'll find ya
I know, you'll be here
If your car stalls in the middle of the road in snow
I know, I know you'll be here
Lights out, in all of the city, black out no doubt
I know, you'll be here
River flows through the streets and the homes are floating
I know you'll be here
Stranded in the middle of China, they'll find ya
I know you'll be here
Here, ooh, I'll be waiting
Oh, I'll be waiting
Oh, I'll be waiting, yeah
I'll be waiting right here in this corner, mmm
Oh, I'll be waiting, baby, yeah
