Trust Issues

Beatrice Eli

You say you wanna make me happy
That you never loved like this before
I wanna believe the things you're saying
I'm just not sure if I'm capableCuz every time your phone rings baby
I wonder who's on the other line
Making you smile
And every time your eyes drift baby
I wonder who's on your mind
Is it her?You say I got nothing to worry 'bout
You say it's all in my mind
But if you needed it then you might need it again
If it could happen once it could happen twiceRight?
Right?
Right?
Right?
Right?
Right?You say you're in this thing for life
That you wanna marry me someday
Right?
But there's a change in how you touch me
Is it the everyday routine kicking in
Or is it her?You say I got nothing to worry 'bout
You say it's all in my mind
But if you needed it then you might need it again
If it could happen once it could happen twiceRight?
Right?
Right?
Right?
Right?
Right?
