

Female of the Species (Radio Edit)

Space

A thousand thundering thrills await me

Facing insurmountable odds greatly

The female of the species is more deadly than the maleShock, shock horror, horror, shock, shock horror

I'll shout myself hoarse for your supernatural force

The female of the species is more deadly than the maleOh, she deals in witchcraft

And one kiss and I'm zapped, ohHow can heaven hold a place for me

When a girl like you has cast her spell on me?

Oh, how can heaven hold a place for me

When a girl like you has cast her spell on me?Frankenstein and Dracula have nothing on you

Jekyll and Hyde join the back of the queue

The female of the species is more deadly than the maleFor she wants to conquer the world completely

But first she'll conquer me discreetly

The female of the species is more deadly than the maleOh, she deals in witchcraft

And one kiss and I'm zapped, ohHow can heaven hold a place for me

When a girl like you has cast her spell on me?

Oh, how can heaven hold a place for me

When a girl like you has cast her spell on me?Oh, how can heaven hold a place for me

When a girl like you has cast her spell on me?

Oh, how can heaven hold a place for me

When a girl like you has cast her spell on me?
