Virus Alert

"Weird Al" Yankovic

Hey, everyone, listen up, your attention if you please
Really wanna give you a warning
'Cause I found out this morning
About a dangerous, insidious computer virus
If you should get an email with the subject, 'stinky cheese'
Better not go taking your chances
Under no circumstances, should you open it
Or else it willTranslate your documents into Swahili
Make your TV record "Gigli"
Neuter your pets, and give you laundry static cling
(Look out!)
It's gonna make your computer screen freeze
(Look out!)
Erase the Easter eggs off your DVDs
(Look out!)
Erase your hard drive and your backups too
And the hard drive of anyone related to youVirus alert!
Delete immediately before someone gets hurt!
Forward this message on to everybodySoon, very soon, it will make all the paint peel off your walls
It'll make your keyboard all sticky
Give your poodle a hickey
And invest your cash in stock in Euro Disney
Then, it will tie up your phone, making crank long-distance calls
It'll set your clocks back an hour and start clogging the shower
So just trash it now, or else it willDecide to give you a permanent wedgie,
Legally change your name to Reggie,
Even mess up the pH balance in your pool(Look out!)
It's gonna melt your face right off your skull
(Look out!)
And make your iPod only play Jethro Tull
(Look out!)
And tell you knock-knock jokes while you're trying to sleep
(Look out!)
And make you physically attracted to sheep
(Look out!)
Steal your identity and your credit cards
(Look out!)
Buy you a warehouse full of pink leotards
(Look out!)

Then cause a major rift in time and space
And leave a bunch of Twinkie wrappers all over the place
That's right it's a(Virus alert!)
Delete immediately before someone gets hurt!
Forward this message on to everybody(Virus alert!)
Delete immediately before someone gets hurt!
Forward this message on to everybody
Warn all your friends, send this to everybody
Tell everyone you know, tell everybody nowIf you get infected, you'll wish you had never been born
So before it emails your grandmother all of your porn
Turn off your computer and make sure it powers down
Drop it in a forty-three-foot hole in the ground
Bury it completely, rocks and boulders should be fine
Then burn all the clothes you may have worn any time you were online!(Virus alert!)
Delete immediately before someone gets hurt!
Forward this message on to everybody(Virus alert!)
Delete immediately before someone gets hurt!
Forward this message on to everybody(Virus alert!)
Delete immediately before someone gets hurt!
Forward this message on to everybody
Warn all your friends, send this to everybody
Tell everyone you know, tell everybody now
What are you waiting for'
Just hurry up and forward this to every single person that you know!
Hit send right now!
