Find My Way to Your Heart

Cabbage Patch Kids

Do you know how it feels to be left on your own?
When everyone else is togheter.
Do you know how it feels to be lost and alone?
Each minute just seems like forever.
If the world is a stage and you're left in the wings
Then you feel like a song
Now I want to sing
How can I find my way to your heart?
Do you know that you can, do you know that somebody's there?
Find my way to your heart
And always to stay, to be closer each day.
How can I find my way to your heart?
How can I find my way to your heart?
