Ur Thoughts (feat. George Clinton)

Paul Hill

Ur thoughts

Everybody wanna say how I should live ,
You need me look bad to make ur own self look good
Stop trying to run my life and just run your own
Who made you judge and jury or king of the throne

If I wanna run around naked in my own crib
If I wanna wear my chain hanging low that's my own biz
Gone an point ur finger at me I'm not that sensitive
I gotta do my own thing I got one life to live

(Hook)
Ur thoughts don't cross my mind I'm gonna do me all the time
I'm getting high as I wanna- I'm gonna do just what I wanna
Ur thoughts won't change my mind so your opinions doesn't matter
So complain all you wanna-I'm gonna do just what I wanna

Dam straight I'm shining' I work hard at trying to shine!
If the flashing lights is blinding you' then close ur eyes
If you paying my bills I might tone down a bit
Until that day comes get use to it
You say I'm playing my music too loud well it's cool with me,
if I'm sleeping all day and hanging all night it's cool with me
I hear ya talking but I ain't that sensitive I'm gonna do my own thing I got one life to live

(repeat Hook)

I won't lose a night of sleep cause you want me to be
Who gives a care what you think you should not see
And if I want to spend my money on the things I like,
what gives you the right the right to judge me
