Let them haters keep talkin' Anybody seen a waitress?  
Tell her bring more liquor  
All my dawgs in the building  
And we smokin' on that killer  
Anybody know a hater? Middle finger to the ceiling  
Feelin' like John Gotti, can't nobody fuck with us (turn up, turn up)  
UH, We them niggas (we them niggas)  
We them niggas, we them niggas (we them niggas, we them niggas)  
All the bad bitches know it (all the bad bitches know it)  
We them niggas, we them niggas (we them niggas, we them niggas)

Middle finger to the ceiling, everybody keep calm  
'Cause you've got some real niggas in the building  
And you don't really look familiar, that's your girl?  
My bad, in my ear she's been begging me to hit her  
Oh lord! Oh lord!  
Have her really catching feelings all night from the club to the villa  
Know you're chilling with the realest, I ain't even gotta say it  
Blowin' money, I don't really mean to litter  
We them niggas, we them niggas from the bottom to the top

Balmain on the feet, twenty bottles of the peach  
On the way, light 'em up, light 'em up (light 'em up)
