

Always Never

Fastball

Strange town, shake down

Sink or swim

Old flames, stage names

Shed your skin

Always and never

We change like the weather

Long gone, house young

Memories

Closed doors, cold wars

You and me

Always and never

We change like the weather

When will you ever

make up your mind (come on) (x3)

Jaded, elated

Time of day

Time out, freak out

Games we play

Always and never

We change like the weather

When will you ever

make up your mind (come on)(x7)
