

# Acropolis

## Crouch End Festival Chorus, Nic Raine & The City o

Is it something I can see  
Is it something I can touch  
Is it something I can feel Is it something I can hear  
Is it something I can smell  
Is it something I can trust  
Yeah Before the surface dries out  
Before the palace burns down  
Before your world is overwhelmed  
Before the surface dries out  
Before the palace burns down  
Before your world is overwhelmed Is it something I can do  
Is it something I can learn  
Is it something I can find Is it something I can fix  
Is it something I can solve  
Is it something I can prove Before the surface dries out  
Before the palace burns down  
Before your world is overwhelmed  
Before the surface dries out  
Before the palace burns down  
Before your world is overwhelmed You scream out  
I hear that  
Our time is running out so fast  
Wings burning  
I'm fallin'  
Our time is running out so fast Is it something I can see  
Is it something I can touch  
Is it something I can feel Is it something I can hear  
Is it something I can smell  
Is it something I can trust  
Yeah Before the surface dries out  
Before the palace burns down  
Before your world is overwhelmed  
Before the surface dries out  
Before the palace burns down  
Before your world is overwhelmed You scream out  
I hear that  
Our time is running out so fast  
Wings burning  
I'm fallin'

Our time is running out so fast
