

Say Ahhh

Dr. Dog

Waiting, don't be crazy
Don't you know that we had the chance to take a chance
Waiting, imitation
I know you feel it now but you're not sleeping underground

Yeah, yeah, yeah
Cause when the night sky turns into day
But the blues just get in the way
You should quit when the quitting is right
Don't let it get boring
Yeah quit when the quitting is right
Don't let it get boring don't don't don't

Lay down and raise your right hand
I swear you'll never die when we're just lying there in bed
Roll on roller coast on
Make it alright, take a chance to learn to fall

Yeah, yeah, yeah
Cause when the night sky turns into day
But the blues just get in the way
You should quit when the quitting is right
Don't let it get boring
No you can go under the knife
Don't let it getting boring
Don't let it

Lalalala
Say yah say yah
Lalalala
