Blackwater

Accolade

I haul you in a sea of silence
On the border line of truth
Hope and violence
I see no sun
I see no place I've loved
Depending on the signs to find the road
Blackwater
Take me with you
To the place that I have spoken
Come and lead me
Through the darkness
To the light that I long to see again
I walk with you
But sleep beside her
If summer came and went
It passed us over
I see her cry
I see the face I've loved
Depending on the blind to find the road
Blackwater
Take me with you
To the place that I have spoken
Come and lead me
Through the darkness
To the light that I long to see again
Blackwater
Take me with you
To the place that I have spoken
I am leaving
In the morning
For the land that I long to see again
