There Was a Whisper

Bang Gang

I feel so alone
I feel so cold
I wan't to fly
Take off to the sky
It's so cold
It's so cold
It's so coldThere was a chill
There was a sound
There was a whisper
That I found
It went along
Searching
It will return while I stayI feel so alone
I feel so cold
I wan't to fly
Take off to the sky
It's so cold
It's so cold
It's so coldThere was a chill
There was a sound
There was a whisper
That I found
It went along
Searching
It will return while I stayThere was a chill
There was a sound
There was a whisper
That I found
It went along
Wandering
It will return while I stay
SearchingThere was a chill
There was a sound
There was a whisper
That I found
It went along
Searching
It will return while I stayThere was a chill
There was a sound

There was a whisper
That I found
It went along
Wandering
It will return while I stay
Searching
