There Was a Whisper

Bang Gang

I feel so alone

I feel so cold

I wan't to fly

Take off to the sky

It's so cold

It's so cold

It's so coldThere was a chill

There was a sound

There was a whisper

That I found

It went along

Searching

It will return while I stayI feel so alone

I feel so cold

I wan't to fly

Take off to the sky

It's so cold

It's so cold

It's so coldThere was a chill

There was a sound

There was a whisper

That I found

It went along

Searching

It will return while I stayThere was a chill

There was a sound

There was a whisper

That I found

It went along

Wandering

It will return while I stay

SearchingThere was a chill

There was a sound

There was a whisper

That I found

It went along

Searching

It will return while I stayThere was a chill

There was a sound

There was a whisper
That I found
It went along
Wandering
It will return while I stay
Searching
