Ultrasound

Sandwich

You're the the stranger makes me glow under my skin
Floating lavender pain melanin spin
I can feel you stir within wherever I go
Yes I know, time to grow, yes I know
Hit my like a rainbow daze, echoes go aroundSunburned afternoon parade summer silhouette
I know I love you, though we haven't met
sometimes you won't let me sleep at all
Yes I know, time to grow, yes I know
Kiss me like a rainbow daze, echoes go around
I will have to let you go just to feel you
So I can hold you,
So I can love you,
Just to be with you
Just to be with -- you
