

# What U Give U Get Back

## Scorpions

What U give, U get back  
As long as I can think I've been  
Running to be free  
There's not a place that could have been too far  
Had nothing but a bag of dreams  
And this old guitar  
A couple of songs to play for you an' me  
There's so much love inside of me  
That wants to be released  
I can't help it so I give it all away  
What U give, U get it back  
So take my love just because it's all I have  
And take my heart, take my soul  
I just never want it back  
As long as I've been living  
I've had music in my veins  
I can't go on without it anymore  
My suitcase is a wanderer  
That takes me, I believe  
For a walk right across your heart  
There's so much love inside of you  
That wants to be released  
And all you gotta do is let it go

What U give, U get back  
So take my love just because it's all I have  
And take my heart, take my soul  
I just never want it back  
'Cause the love you give, is the love you'll get  
There's so much love inside of me  
That wants to be released  
I can't help it so I gave it all away  
What U give, U get back  
So take my love just because it's all I have  
What U give, U get back  
So take my love just because it's all I have  
Take my heart, take my soul  
I just never want it back  
'Cause your love, your love is all I have

All I have  
Love is all we have, oh yeah  
All I have  
All I have  
All I have  
What U give, U get back  
Take my love just because it's all I have
