Advisory - the following lyrics contain explicit language:

Oh, oh how will we get this home
I can't tell, the weakling is tough
You better get his coat, look at his face
I wanted it all and gotten really far at my own pace
I don't want it no more, more Feud, Yeah you got an attitude
Yay you're on the TV
I need you to fail, let's give 'em hell
Just a little justice, sing this Get a little money and a house and a car
Filling up your pockets, but that's all that you got
I want you to fail, fail This is just a freak show
Wait 'til you see it from the inside
We was caught sleeping, steady dreaming when the shit caught fire
I'm out of time, the mattress melted my arm, my arm
Get a little money and a house and a car
Filling up your pockets but its all that you got, I'm warning you
Get a little money and a house and a car
Filling up your pockets, but its all that you got
I want you to fail
I want you to FAIL!
