I Wanna Be

Emma Roberts

took my time
Learning my lines
Trying to sort it out
This life that I lead
Its trapped me naive
I wanna scream out loud
Leave the past behind
Now is my time

I wanna see
I wanna dream
I wanna live a life of fantasy
I wanna fly
I want my life to be much more than just an alibi
Can't you see
I wanna be
I wanna be
(Yeah)

Running in place
Been out of the race
Before it even started
I'm stuck at the gate
Don't make me wait
Swimming in a sea uncharted
Fly... sail...
A starry night
First star I see tonight
I wish for a kiss goodbye
Now I'm flying high

I wanna see
I wanna dream
I wanna live a life of fantasy
I wanna fly
I want my life to be much more than just an alibi
I wanna see
I wanna dream
I wanna live a life of fantasy

I wanna fly
I want my life to be much more than just a
Journey leading down the road to no where
Future fading masquerading wonders
And that's when I begin to dream
(To dream)

I wanna see
I wanna dream
I wanna live a life of fantasy
I wanna fly
I want my life to be much more...
I wanna see (I wanna see)
I wanna Dream (I wanna dream)
I wanna live a life of fantasy
I wanna fly
I want my life to be much more than just an alibi
Can't you see
I wanna be
