

Breaking the Chain

Sum 41

[Verse 1]

Here, as I stand, all the signs become so clear
To get back home again, sometimes I lose my way[Pre-Chorus]

Because I've got to fall and just lose it all

Am I running out of time?[Chorus]

I'm breaking the chain from the life I knew

Beat it black and blue each time

To be face to face with the lies I choose

Throw the truth into the light

Make no mistake, I've paid my price

I've done my time with the devil in disguise

'Cause the life I knew has a different view

Tonight, I'm breaking the chain[Verse 2]

Days pass me by like I'm saving wasted time

I'm not all right, I think I've fallen for the lie[Pre-Chorus]

And as it fades to black, I'm not looking back

I'm so blinded by the light[Chorus]

I'm breaking the chain from the life I knew

Beat it black and blue each time

To be face to face with the lies I choose

Throw the truth into the light

Make no mistake, I've paid my price

I've done my time with the devil in disguise

'Cause the life I knew has a different view

Tonight, I'm breaking the chain[Guitar Solo][Bridge]

'Cause I'm tired of chasing, chasing yesterday

(How should I feel?)

Skies don't fade, they never go away

(And I'm still bleeding)

Ever step I take, all the chains I break

It brings me one step closer(I'm breaking the chain)[Chorus]

I'm breaking the chain from the life I knew

Beat it black and blue each time

To be face to face with the lies I choose

Throw the truth into the light

Make no mistake, I've paid my price

I've done my time with the devil in disguise

'Cause the life I knew has a different view

Tonight, I'm breaking the chain

I'm breaking the chain
I'm breaking the chain
