

Bound By Love

Gran Bel Fisher

Tip-toeing along the line
just in case you're not fine
I'll give in to your needs
cause they just might be what you need
Bridge:
Even though it's unknown
where the two of us will go
and what darkness we'll have to see through
Chorus :
Cause I'm bound by love
and I'm thinking of what could be
where there's a will there's a way
so will you come out and play
with me with me?
Verse Two:
For every tear that's caused by me
I'll give you space but you know where I'll be
waiting just to dry your eyes
it's so easy to find our way back once we try
Bridge:
even though it's unknown
where the two of us will go
and what darkness we'll have to see through
Chorus:
Cause I'm bound by love
and I'm thinking of what could be
where there's a will there's a way
so will you come out and play
with me with me?
Verse Three:
The motion of emotion
is the thought I fear
and the whispers of the future now
keep drawing me near, keep drawing me near
Repeat Chorus 2x
