## Hell & Back

## **Kid Ink**

You can tell them that I've been from hell and back When the heat is on I fire back In this cold world Where your lighters at Lets burn it down Fire back You can tell them that I've been from hell and back When the heat is on I fire back In this cold world Where your lighters at Lets burn it down Fire back Uh, let's take it to the ground Done too many make it coming to our town Looking for a detour nowhere to be found When the pressure's on seems nobody's around Uh, but I won't let them see me sweat Ye it took a little time, But can't really be upset Long way to the top, I can barely see the steps Yeah, they sleeping on me still But I barely need to rest See me standing here head high Face up, I don't need no X-Ray Show you what I'm made of Tell 'em I paid my dosen You can check the paystubs Never had a chance so I had to go and make one Say some You can tell them that I've been through hell and back But I'm home, can't really complain when It's the life that I chose Sacrificied it all and everything that I owned

Say "What doesn't kill me can only make me stronger"
You can tell them that
I've been from hell and back
When the heat is on
I fire back
In this cold world
Where your lighters at
Lets burn it down
Fire back
You can tell them that

I've been from hell and back When the heat is on I fire back In this cold world Where your lighters at Lets burn it down Fire back Yo can you feel the heat The block is hot as ever In these city streets You only get one shot Keep your arm steady They tried to make me wait But I'm more than ready To go and get my grind liker and line Skater check your wrist watch you'll see that This time is my time, And I don't need no invite To the party, got roll over minutes and Feels like my calling, uh I'm just doing what I can With a whole lot of drive Trying to make my own path Take a chance, can't sit and worry about No 5-year plan gotta live for the day 'Cause I could die where I stand Tell 'em You can tell them that

You can tell them that
I've been through hell and back
But I'm home, can't really complain when
It's the life that I chose
Sacrificied it all and everything that I owned
Say "What doesn't kill me can only make me stronger"
You can tell them that

I've been from hell and back
When the heat is on
I fire back
In this cold world
Where your lighters at
Lets burn it down
Fire back
You can tell them that
I've been from hell and back
When the heat is on
I fire back
In this cold world
Where your lighters at
Lets burn it down
Fire back
