Kill And Run

The Great Gatsby Soundtrack

Watching the sequence of sounds
coming out of your mouth
but the snore is too loud
follow the hands as they move
try to make out your move
but my brain doesn't want to
silent call for you
what have I done to you
kill and run, kill and run
I'm one of the dirty guns
kill and run, kill and run
a bullet through your heart
interpret the eyes as they die
should i cry should i love

your poor lashes blow
victim of sensory love
you cry over my
an innocent call
silent call for you
what have I done to you
kill and run, kill and run
I'm one of the dirty guns
kill and run, kill and run
a bullet through your heart
kill and run, kill and run
I'm one of the dirty guns
kill and run, kill and run
A bullet through your heart
