

Harder Than You Think

The Floor Is Made of Lava

Verse 1

You are at your best when you're not trying
You're trying harder than you think
I'm not really here for the party
I just can't let go of my drink
So i let go of myself
Because I know that you'll noticed
On the bottom of a bottle it can only get lonely

I know you love me
And I love the way you don't let me know

Verse 2

You always looking for answers
Thou you heard them all before
And the million dollar question
Only lead you to a million more

So you stop making sense
Make fun of my flaws
But when you're fooling around
It ain't foolish at all

Chorus

I told you that I loved you to many times
But if you need me like I need you
I will say I all night
2X
So if you need me common
And say it all night
