No Name

Delorean

i saw you hidin your name to a policeman
i saw you gettin no name
i saw you hidin your name from a policeman
i saw you gettin no namewe dont need no given names, we dont need to be stuck to anything that can not be removed
we just need the empty space to spread around some new (moves)we dont need no given names, we dont need to be stuck to anything that can not be removed
we just need the empty space to spread araund some new (moves)i saw you hidin your name to a policeman
i saw you gettin no name
i saw you hidin your name from a policeman
i saw you gettin no namewe dont need no given names, we dont need to be stuck to anything that can not be removed we just need the empty space to spread araund some new (moves)we dont need no given names, we dont need to be stuck to anything that can not be removed we just need the empty space to spread araund some new (moves)don't apologize
don't apologize...x3
don't apologize ..... (i saw u hidin ur name to a policeman)
don't apologize...x6 ...(i saw u gettin no name)we dont need no given names, we dont need to be stuck to anything that can not be removed we just need the empty space to spread araund some new (moves)we dont need no given names, we dont need to be stuck to anything that random concrete figures growing high enough to take u down.
