

# A Place In the Sun

## Marine Girls

Imagine a sunny holiday  
Paris or cafe  
Corner table for two  
And that is me and you Barefoot by the shore  
A drink with ice and two straws  
Sigh up at clouded sky  
You wave as the girls go by Take a boat out for a while  
You row and I lay back in style  
We'll reach the other side you say  
But we never get half way When the evening comes around  
We stroll through a lamp lit little town  
Miles and miles from home  
Happy to be on our own
