

I Come In Peace

Harley Flanagan

I come in peace
but ready for war
I don't know
who you mistook me for

betrayed by friends
surrounded by enemies
I'm ready for war
but I come in peace

there was a time
I used to believe
there was some kind of loyalty
on the Hardcore scene

but the same motherfuckers
who used to claim to be your friends
are the ones who will stab you in the back
in the end

How many of you
does it take
to fuck with me
make no mistake
