

Run for the Prize

Petra

Alone on the sidelines without any guidelines
You've been running to fast with no place to go
You've got no direction, you gotta set your affection
On the things that can bring you right back in the flow You got to run for the prize
Don't look over your shoulder
Gotta keep your eyes
On the straight and narrow Gotta run for the prize
There's no time to be wandering
Gotta make your way
Just as straight as an arrow You may be weary but you gotta be leery
When somebody says that you will never finish the race
They can discourage but don't lose your courage
You gotta narrow the margin and keep up the pace
