

You Don't Define Me

Mindy Gledhill

Verse

Why do you stare?
Why do you turn your nose up in the air?
What do you care? Coming around?
Turning my life into your own affair?

Verse

You know my name, but how would it be if you knew of my pain?
I won't complain.
We've all played that game, but I still take your talk and I toss it away.

Chorus

Words are falling out your mouth like rain falling all over the ground.
Like thunder and lightning.
You say you got it figured out.
You think you know what Iâ€™m all about, but you donâ€™t define me.

Verse

Donâ€™t run and hide you can't take your pride now that youâ€™ve taken mine.
Holding me like, a black and white slide.
So exposed underneath all the light.

Chorus

Words are falling out your mouth like rain falling all over the ground.
Like thunder and lightning.
You say you got it figured out.
You think you know what Iâ€™m all about, but you donâ€™t define me.

Verse

Donâ€™t make life harder than it has to be.
Maybe for starters you could learn to see, thereâ€™s beauty in everything.

Bridge

I know its gonna get you. Youâ€™ll never know what hit you. Uh oh I guess youâ€™ll never ever even really know.
donâ€™t so have had it, go on and get it started. Its all a fuss, its all a rush you never let me show.

Chorus

Words are falling out your mouth like rain falling all over the ground.
Like thunder and lightning.
You say you got it figured out.

You think you know what Iâ€™m all about, but you donâ€™t define me.

Chorus

Words are falling out your mouth like rain falling all over the ground.

Like thunder and lightning.

You say you got it figured out.

You think you know what Iâ€™m all about, but you donâ€™t define me.
