

Daydream

Darden Smith

Lost in a daydream
That will not come true
Since you've gone I seem to
Get lost in a daydream of you And if I saw you today
Down on the street I would say
A few words, you would see
That you are truly meant for me Lost in a daydream
That will not come true
Since you've gone I seem to
Get lost in a daydream of you If I could live my life in reverse
Maybe, then I could break that curse
And start again
And instead of losing we might win Lost in a daydream
That will not come true
Since you've gone I seem to
Get lost in a daydream of you I make big plans like a big man
What it comes down to is, you see right through me
And all of my silly daydreams
You and I know they will never come true But since you've gone I seem to
Get lost in a daydream of you
I get lost in a daydream of you
