One Small Step

Karen Drucker

Slow intro:

Iâ€™m taking One small step - instead of looking at the mountain
Iâ€™m taking One small step - gets me closer to my goal
Iâ€™m taking One small step - instead of looking at the mountain
then it won't seem like I've got so far to go...start a peppy rhythm!

Chorus:

Iâ€™m taking One small step - instead of looking at the mountain
Iâ€™m taking One small step - gets me closer to my goal
Iâ€™m taking One small step - instead of looking at the mountain
then it won't seem like I've got so far to go...

I've got dreams filled with passion
I've got fears that seem to pop up in my way
but I've got power that's deep inside my soul
when I look too far and lose my way
it always lets me know... that I've gotta take...

Chorus

I got off the track - I couldn't find my way back
when I looked inside the truth there could not be denied
I was making it harder than it had to be
just pushin' and fightin' until I found the key...that I've gotta take..
