A Dynasty From The Ice

Rotting Christ

thousand meters under
buried city of ice
observance of the prophecy
the water melts the ice
crystal logic
barbarian king
preserved for centuries
the missing link
shining glory
freezing myth
sallow mass
in the war they pass
living by night
never seen the sun
the rays against
cold gloomy faith
cross the outer space
near the inner domain
in the freezing star of thuge
starting place, safe refuge
read minds of their enemies
strategy, defense
in an unequal battle
throw waves of cold
