Try with Me

Dj Mixer

And you said, leave your keys on the counter
And you said, call me back at eight
I don't care, that you left me there for hours
But you said, we had what it takes
Why's it feel like you're there
When you're already gone
Why's it feel like you care
When I know that you don't
Everybody needs a chance at love
That's all we need
If you wanna have a chance at us
Then try with me
Too proud for love, he tells me
Too hurt to give it one more shot
Don't draw me in, he warns me
But now it's too late to give up
So don't say, you leave your keys on the counter
And don't say, you call me back at eight
Why's it feel like you're there
When you're already gone
Why's it feel like you care
When I know that you don't
Everybody needs a chance at love
That's all we need
If you wanna have a chance at us

Then try with me
Don't say a word
If you know that it hurts
You know that it hurts
You know that it hurts
Don't say a word
If you know that it hurts
You know that it hurts
You know that it hurts
Why's it feel like he's there
When I know that he's gone
Why's it feel like he cares
When I know that he don't

Everybody needs a chance at love
That's all we need
If you wanna have a chance at us
Then try with me
Don't say a word
If you know that it hurts
You know that it hurts
You know that it hurts
Don't say a word
If you know that it hurts
You know that it hurts
You know that it hurts
