

Suck My Heart Out With a Straw

The Fauntleroy

The doctor came to see me today,
She says it's best if you go away
She says I shouldn't be alone,
Suck my heart out with a straw She says there's nothing she can do,
'Till when I get over you
I can't remember all she said,
She left the pill on he bed
She left the pill on he bed I was violated in the crib,
'Cause of somethin' you did
No one lives where no one gives,
Suck my heart out with a straw This time.
You think it's splendid,
But we gotta end it. I was lying on the tracks,
'Cause killing me is lovin' you
Once a story becomes a fact
Suck my heart out with a straw The drunken door just won't let go,
The public sax, it mocks me,
It says I'll never get the call
So can't you just,
Suck my heart out with a straw
Suck my heart out with a straw Like something' dying in the fridge,
Like someone jumping off the bridge
Just like Myra Breckinridge
Why can' you just,
Suck my heart out with a straw
Suck my heart out with a straw It can't be
It can't be This ain't the way to go
How'm I the last to know
