Now Is the Time

The Free Design

Desire, the feeling so clear
It sings in everything you hear
Desire, the feeling you never lose
It's always something new
And it's waiting for you to follow throughWe all have a song, life is the dance
And right or wrong we will all take the chanceNow is the time, the time is right
We've got no reason to wait let's do it tonight
This is the night, tonight is the time
Bring the dream to life and let it shineDesire follows and leads the way
Like night follows day
Desire, it's right before your eyes
No questions no surprise
It's been waiting so long for you to decideWe all have a song, life is the dance
And right or wrong we will all take the chanceNow is the time, time is right
We've got no reason to wait let's do it tonight
This is the night, tonight is the time
Bring the dream to life and let it shineAll the fantasies we keep inside
We'd love to live it but we don't know how
Too late for yesterday, too early for tomorrow
That means it's gotta be nowWe all have a song, life is the dance
And right or wrong we will all take the chanceNow is the time, time is right
We've got no reason to wait let's do it tonight
This is the night, tonight is the time
Bring the dream to life and let it shineThis is the song, now is the time
Alone the love is gone, together it's yours and mine
This is the night, this is the song
Feel the love again it's where we belong
