

# Bring It Down to Jelly Roll

[John Fogerty](#)

Well, if you want  
To ease your mind  
You just go on  
Take it to the river  
When you're down  
Well, that's alright  
You just bring it down to jelly roll We're gonna run  
And jump and shout  
We're gonna slide  
Way back in the country  
There's a place  
Where they treat you right  
You just bring it down to jelly roll Now little girls  
The way down south  
They got their way  
Honey drippin' from their mouth  
If you ever get some luck  
You better bring it down to jelly roll Now look at me  
Lord, I ain't got a dime  
But I can dance  
Lord, I'm jumping all the time  
I live honey, straight to the bone  
And just bring it down to jelly roll
