

This Is for You

Search/Rescue

I guess I figured all along
Now I'm reminded all day long
I count the things that I've done wrong
And I'm sorry

So many times I can't keep track
There are some things you can't take back

I guess some people never learn
You never stop until it hurts
You keep on pushing till you lose
This is for you
This is for you

If i could change the things I've done
I'd take the words back one by one
I'd shove them back inside my mouth
So you'd never ever hear me speak again

I guess some people never learn
You never stop until it hurts
You keep on pushing till you lose
This is for you
This is for you

I guess some people never learn
You never stop until it hurts
You keep on pushing till you lose
This is for you
This is for you

This is for you
This is for you
