

# Far Away

## Wolfmother

Don't you ever get together  
When you're far away, when you're far away?  
The nights are long, well, it's something that you never seen  
But it's hard to say, but it's hard to say Don't listen to the words they say  
They can take it or leave it anyway  
Just let it go another day Step down from the mountainside  
Well, I see that you're doing fine  
When you're far away, when you're far away Well, you tell me that you're coming down  
Well, it's good to see that you're back around  
But it's hard to say, I was far away Don't listen to the words they say  
They could never believe you anyway  
Just let it go another day I believe that love is gonna last forever  
And it's all within my mind, and it's all within my mind  
I believe that love is gonna last forever  
And it's all within my mind, and it's all within my mind I believe that love is gonna last forever  
And it's all within my mind, and it's all within my mind  
I believe that love is gonna last forever  
And it's all within my mind, and it's all within my mind Can you believe that love is gonna last forever?  
And it's all within my mind, and it's all within my mind
