

# Heartless

IM5

I'm as bad as you want me  
The side of me you'll never miss  
But, I promise I don't need saving  
'Cause I'm just trying to save my own skin I always SHOW her nothing but the finest  
And ALL she shows me  
Is where the EXIT SIGN is  
So baby if you fall for me  
Don't ask for mercy please  
I won't crash again I come off a little rude  
'Cause I got everything to lose  
You really need to watch your step  
And you think I'm heartless Well I just listen to my heart less, my heart less  
I'm not heartless  
No I just listen to my heart less, my heart less  
Oh I broke it one too many times  
Now I listen to my heart less I can feel your hold on me  
That's why I'm drifting away  
'Cause the minute I let my guard down  
You walk right in and slam the door to face I always show her nothing but the finest  
And all she shows me  
Is where the exit sign is  
So baby, if you fall for me  
Don't ask for mercy please  
I won't crash again I come off a little rude  
'Cause I got everything to lose  
You really need to watch your step  
And you think I'm heartless Well I just listen to my heart less, my heart less  
I'm not heartless  
No I just listen to my heart less, my heart less  
Oh I broke it one too many times  
Now I listen to my heart less Now I've been dealt a hand  
Bad cards I wanna fold them  
When I try to break the ice  
They always give me that cold shoulder  
Yeah I've been left for the vultures one too many times  
So if he said she said I'm trouble  
I'll tell you they ain't lying  
Told you they weren't gonna last  
I'll take all your gifts and give 'em right back

My love is a trap you know it's a fact  
Baby I'm nothing but your next regret  
So you better keep your distance  
Or I'll teach you a lesson  
And if you think I'm heartless Well I just listen to my heart less, my heart less  
I'm not heartless  
No I just listen to my heart less, my heart less  
I'm not heartless  
No I just listen to my heart less, my heart less  
I'm not heartless  
No I just listen to my heart less, my heart less  
Oh I broke it one too many times  
Now I listen to my heart less My heart less
