

So Fatigued

Pharoin

Waste your energy on hating me, look at me, think of me. I leave you so fatigued.

You're so mad at someone you don't know

Damn right I'm gonna steal your show

You don't own a fucking thing

And none of them wear your fucking ring

I'm laughing when you're crying tonight

I don't need to brag, you know just who I've had

Take your insecurities

No one wants your tyranny

Waste your energy on hating me

I leave you so fatigued
