

Know About Me

Ryan Keen

Wanna know what I'm thinking?
Why I can't sleep at night?
Wanna know what I'm drinking?
A double of anything's fine.
It's alright Wanna know what it feels like
To be so far from home?
I've been on the wrong side babe oh so long
That it feels right Wanna know, do you,
Wanna know, do you,
Wanna know about me?
Wanna know, do you,
Wanna know, do you,
Wanna know, do you,
Wanna know about me? Keep falling, until you can't fall no more
Until you feel like, you've been falling for way to long
Keep falling, until you can't fall no more
Until you feel like, you've been falling for way to long Then you will know about me babe, know about me.
Then you will know, about me.
Then you will know,
About me.
Then you will know,
Then you will know,
Then you will know,
About me. Wanna know where we're heading
When we all get kicked out?
I see you're carefully treading
around a fire I already put out,
But it's alright Wanna know where we're going?
Well I guess that depends.
Meet me back at the start, back at the part
where we know how it ends,
It's alright Wanna know, do you,
Wanna know, do you,
Wanna know about me?
Wanna know, do you,
Wanna know, do you,
Wanna know, do you,
Wanna know about me? Keep falling, until you can't fall no more
Until you feel like, you've been falling for way to long
Keep falling, until you can't fall no more
Until you feel like, you've been falling for way to long Then you will know about me babe, know about me.

Then you will know about me.
Then you will know,
Then you will know,
Then you will know,
About me.Wanna know what I'm thinking?
Why I can't sleep at night?
Wanna know what I'm drinking?
A double of anything's fine
