## **In Our Darkest Hour**

## **Phantom Planet**

Oh yeah, it started today in a cloud

If I was the sun I would shout

I've got so much shining left before I'm out

Yeah, it began with a spark then a flame

Grew into a fire and spread out again

re surrounded by the whole thing Well, we have

And I just woke up here surrounded by the whole thingWell, we have got to get out of here In our darkest hour, when we may not make itI can't see a thing through the smoke

And if I could breathe I'd try not to choke

Nowhere to run nowhere to hide nowhere to go

Sometimes I get stuck yeah I get so upset

I burn at the ends I learn to regret

Just one toss of that faithful cigaretteWell, we have got to get out of here In our darkest hour, I think the end is near I can feel it

We have got to get out of here

In our darkest hour, when we may not make itIn our darkest hour, I think the end is near I can feel it

We have got to get out of here

In our darkest hour, when we may not make it
In our darkest hourIn our darkest hour
In our darkest hour
