

The 11th Hour

Taio Cruz

I search the world to find the girl
I need, I need
I know she's also searching out
For me, for me I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you I search the world to find the girl
I need, I need
I know she's also searching out
For me, for me I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you I will... I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you I will...
