

# I Seek No Other Life

## Serious Black

No promises hold me now  
No time and no place is announced  
The thousands that worry how  
They're simply obsessed with their plans

Inside the walls come down  
Outside the rains fall down

I've told you a thousand times  
The time and the place must be now  
My friend, let's not worry how  
We simply let rip at their plans

Inside the walls come down  
Outside the rains fall down

I live today  
I live tonight  
I stand alone and I alone decide what's right  
So when tonight has come  
Just when the hunt is on  
I seek no other life

No promises hold me now  
No time and no place is announced  
My friend, let's not worry how  
We simply let rip at their plans

Inside the walls come down  
Outside the rains fall down

I live today  
I live tonight  
I stand alone and I alone decide what's right  
So when tonight has come  
Just when the hunt is on  
I seek no other life
