

Everything's Right

[Matt Wertz](#)

Windows down, the night blows in
Tap the beat on the wheel as the tires spin
Until we're there crank the radio
We'll join in with the songs we know Hey, everything's right
Said everything's right tonight
Hey, everything's right
Said everything's right tonight Smiles light up as we walk in
Old conversations begin again
Nostalgia's thick as the August air
It takes us back to a time when we didn't care, we didn't care Hey, everything's right
Said everything's right tonight
Hey, everything's right
Said everything's right tonight
Ooh, everything's right Hey, everything's right
Said everything's right tonight
Hey, everything's right
Said everything's right tonight Hey, everything's right
Said everything's right tonight
Hey, everything's right
Said everything's right tonight
Everything's right
