

# All My Life

## Nite Jewel

you ran from  
from the good life  
to the dark side  
and all my life  
i tried to find you  
in the mean streets  
with them beneath me  
and all my life  
i tried to find youyou had a good thing but you  
threw away everything i knew  
oh what you had to lose  
you went throughnow i'm winding in circles  
got me placed  
don't want to settle for the chase  
oh what i want to do is  
see your face
