Emily

The Icarus Account

Emily

She don't know what she's done to me

I swear that she is the one for me

But she'll never know

Unless I tell her soEmily

Yeah she's got everything

She's all I need

Yeah she's the reason I sing

But she'll never know

Unless I tell her So

And when she falls asleep

I hope she dreams of meNo oh I can't get over the way

My heart it breaks when she don't want me to stay

No oh I can't get over the games

You come back you leave well don't come back to meAnd so I wrote her off for then

'Cause I just couldn't take it all again

But baby honestly

I still thought about

If we could've worked it out

I'll take you just the way you are

I'll never ever break your heartNo oh I can't get over the way

My heart it breaks when she don't want me to stay

No oh I can't get over the games

You come back you leave well don't come back to me

I want you back when you leave well just come back EmilyEmily

She's got everything

She's all I need

Yeah she's the reason I sing

And when she runs away,

No don't you run away

I'll take you just the way you are

I'll never ever break your heartNo oh I can't get over the way

My heart it breaks when she don't want me to stay

No oh I can't get over the games

You come back you leave well don't come back to me

I want you back when you leave well just come back Emily
