

Be Careful

Adore Me Not

Take a look, take a look
How did we get this far?
And it took, and it took
us to the fall
Take a deep deep breath
and sharpen your eyes
then you will see
me in no disguise Be carefulâ€”Just don't fall in love with me
(with me, yeah)
Be careful
Just don't fall in love, in love with yourself We can't break, we can't break
chains that were made of steel
I will take, I will take
you down with all my needs
Will you be the first?
Will you be careful of
what you deserve?
I'm your sweetest thoughtâ€”â€”Take a deep deep breath
Sharpen your eyes
Then you will see me with all these guys Be careful
(take this good advice)â€”Just don't fall in love with meâ€”(with me)
Be carefulâ€”(you've gotta pay the price)
Just don't fall in love, in love with yourselfâ€”â€”Be Careful ohh
Just don't fall in love again
Be careful ohhâ€”â€”Be careful ohhâ€”Just don't fall in love with meâ€”(with me, yeah)
Be careful
Just don't fall in love, in love with yourself
yourself
yourself
