Great (feat. Sinach)

Samsong

Intro
Oh oh oh ooh (x4)

Chorus
Verse 1
We come with boldness and with songs
To declare the victory of our God
See the evil one has been defeated
Now we reign in victory
No more sickness no more dying
For the cause of death has been destroyed
Went to hell and conquered death
Now we rule and reign on Earth
Reigning with him as king

Chorus
You're great great great great great
Greatly to be praise
Worthy of our praise (x2)

Verse 2
I'm not move by what I see
For I see the greatness of my king
Even the highest mountain bow before him
Heaven and Earth and nature sings
No more sickness no more dying
The cause of death has been destroyed
He went to hell and conquered death
Now we rule and reign on Earth
Reigning with him as king

Repeat Chorus
