

# Paper Waves

## The Gathering

Sun comes out - Wakes me up  
Wanna sleep, need to sleepSaw your face - In my dreams  
Fade away, far awayFade away, fade awayYou took your time - Passing by  
Smiles and tears - No one caresHad you once - Now youre gone  
Want you here, Need you nearDreams and life it seems  
Are crushing boundaries in me  
Paper waves and seas - Ride the tide with meNeed to see - Youre not far from me  
Im breaking time - Crossing linesI start to run - to catch the sun  
from falling down - and burn this townI try to reach - You slip away  
Cant you stay - Please just stayCold and warmth collide  
Turning dark and light, inside  
Nights we over fly - All logic gone awryTo know we might not meet again, I hardly bare to look at you  
In all this mess we dont complain, we kind of always knew
