

# Journey Kid

## Empires

You hit the road kid  
The kind we don't ever see  
I hear you feel at home  
When you are traveling  
And you're along way from your old friends  
You gave a message before you left  
For me  
For them  
I hear you left on a holiday  
And we're never gonna get you back  
Couldn't get your heart a break  
Oh boy, you don't look so sad  
Where you're headed you ain't looking back  
Where you're headed you ain't looking back  
Where you're going you ain't looking back  
I heard it was again  
I heard that you left 3 times  
And that you don't feel cheated  
And that you're feeling fine  
You must found a real journey  
You found it earlier than the rest  
And will you leave a light on? Oh  
I hear you left on a holiday  
And we're never gonna get you back  
Couldn't get your heart a break  
Oh boy, you don't look so sad  
Where you're headed you ain't looking back  
Where you're headed you ain't looking back  
Where you're going you ain't looking back
