

Dead Meat

Impact Unit

The hangman's noose won't get me
Gas chambers never stress me
They line me up against the wall
No firing squad will make me
Confess or even break me
I'll stand alone or not at all
 I will not obey
 I will not betray
 I will not give in
 Not while I'm living
 No surrender
 We never will surrender
 We are all dead meat
 Cut us, watch us bleed
No shackles made will chain me
No endless pain will change me
 The scars will testify this all
 No solitary confinement
Will break my strong resignment
I'll die before I will conform
 I will not obey
 I will not betray
 I will not give in
 Not while I'm living
 No surrender
There'll never be surrender
 We are all dead meat
 Cut us, watch us bleed
 Read in my obituary
 Defiance breeds victory
No cage they make can hold me
 No law enforced controls me
No trap that's sprung stops me for long
 No prison cell contains me
No snare they set will claim me
 Relentlessly I'll fight them all
 I will not obey
 I will not betray
 I will not give in

Not while I'm living
No surrender
We never will
Be driven asunder
No surrender
We never will
Raise the white flag
We are all dead meat
Cut us, watch us bleed
We are all dead meat
Cut us, watch us bleed
Indoctrination
Will never
Suppress me
They're seriously mistaken
'Cause I'll take them
Down with me
And just before they're finished
They'll scream
Along with me
We are all dead meat
